JUTRON Vision

enhancing vision ~ enriching life

Part # 254505 Heidi Expressions Test Game

- Some children with brain damage-related vision loss may achieve near normal results in routine vision tests (large visual field and normal or near normal visual acuity), but cannot interpret facial expressions or recognize people's faces.
- The Heidi Expressions test game improves early evaluation of vision for communication. 18 cards per set. Cards are 4" x 4" (10.16 cm x 10.16 cm).
