Precision Vision[®] USA

3104 Spielmann Translucent Occluder

- Our most popular occluder, Measures 20.3 x 5.75 cm (8 x 2.25 in.)
- Metric and US rulers on the side of handle, Pupil gauge on the side of handle
- Can be cleaned with alcohol and any non-solvent based sanitizer
- Unlike many other eye occluders, this occluder is translucent and allows for better diagnosis of exams.
- The unique coating on both sides effectively prevents the patient from seeing through, yet allows the doctor to observe eye movements clearly.
- View both eyes while testing instead of only one, helps to expand the information gathered during general clinical exams.
- This translucent occluder is also very durable and can be cleaned for multiple exams.
