JUTRON Vision

enhancing vision ~ enriching life

153010 Magnetic Amsler (10pk)

The Magnetic Amsler helps patients remember to check their vision and provides whitespace for advertising your practice. These are great handouts for AMD patients. The Amsler is a valuable tool for detecting central visual field distortion which may indicate the onset or progression of macular degeneration, a common cause of vision impairment in people over 60. This magnetized modified Amsler allows your patients to perform a simple, daily self-administered test. Printed on a 3 x 3 inch magnetized rubber card.
