## # VTP-1060T+ VTP Edition Rotation Trainer Table Model Kit

- Brand new modern rotator! Professionally designed and engineered to test and enhance eye/hand coordination, perceptual and space awareness, dynamic visual acuity and dynamic fusional training. This new rotator has a multitude of improved features over previous rotators.
- The motor and handheld controller have been redesigned from the ground up. The motor is now housed in a sleek rectangular anodized blue aluminum housing. The handheld digital controller connects via a standard ethernet cord. This new rotator can get down to 3 rotations per minute. The controller can rapidly increase and decrease the speed by holding down the speed + or - buttons. It also features a clockwise or counterclockwise rotation button. Simply press the desired rotation direction button and the disc rotation will reverse. The session can be started, stopped and turning on and off via the corresponding buttons on the controller. All information is displayed on the controller's digital screen. The controller attaches to the motor via magnetic connection when not in use.

- The discs are now attached to the hub via Bernell's new quick connect magnetic feature. No more unscrewing discs from the hub when swapping discs. The discs now have a magnetic attachment adapter that snaps into the magnetic hub. Additional front magnetic attachments with knob can be purchased for other discs for the VTP Edition Rotation Trainer (VTP-HUBFR) for quick change over when using multiple discs. Plastic discs are 20-1/2" in diameter. Pegboards include tees.
- The stand features a small pole height adjustment upwards and downwards to the desired height.
- Complete system features: Table rotator stand with heavy-duty base, motor with power cord, digital controller with ethernet connection cord, deluxe multi-positional tilt head, magnetic attachment hub and disc adapter, and disc.

**VTP Edition Floor Model Disc Options:**

- Anti-Suppression Black Background Pegboard Disc
- Geometric Pegboard Disc
- Plain Pegboard Disc
- Sports Disc
- Elephant Disc
- Plain Pegboard Disc

**The following items come standard in each VTP Edition kit:**

- (1) Disc with Magnetic Quick Connect Hub Attachment
- (1) Magnetic Disc Hub for Rotator
- (1) Handheld Digital Controller with Magnetic Attachment and Ethernet Connection Cord
- (1) Deluxe Multi-Positional Tilt Head
- (1) Blue Anodized Rotation Motor with Power Cord
- (1) Floor Rotator Stand with Heavy-Duty Base

**Additional Training Discs are available for separate purchase.**

Note: We recommend the purchase of additional Individual Front Magnetic Attach with Knob for VTP Edition Rotation Trainer (VTP-HUBFR) for quick change over when using multiple discs.
