BC1050BK Aperture Rule Trainer Kit Black

The Bernell Aperture Rule Trainer Kit is a standard tool used in VT programs to improve various visual skills, including low fusional and accommodative reserves, poor stereopsis, fixation disparity, suppression, and tight accommodation-convergence relationship. It is perfect for individuals experiencing asthenopia and visually related learning problems. The trainer features progressive fixed demand and does not require polarized or colored lenses, making it easy to use. With a range of 30PD Base-Out to 17.5PD Base-In, this trainer is shipped in a protective corrugated storage box for added convenience.

The Bernell Aperture Rule Trainer Kit includes:

- A set of sports/action cards
- Single and double aperture sliders
- Red pointers
- A user manual
- A protective corrugated storage box to keep your kit safe and organized.
